Answers

Phrase	Type of information	Actual information
1. Now, an important concept (is) ...	e. a new idea or topic the lecturer wants to discuss	the concept of an integrated care pathway (ICP)
2. So, what do I mean by ...?	g. an explanation of a word or phrase	explanation of the concept of an ICP
3. As you can see, ...	f. a comment about a diagram or picture	reference to the depiction of a patient's journey through A & E
4. Say ...	b. an imaginary example	example of a patient journey for someone with a fractured hip
5. However, looking at it another way, ...	a. a different way to think about the topic	an ageing population has meant many more admissions to acute care and caused problems for hospitals
6. The point is ...	c. a key statement or idea	because of increased admissions, patient flow is disorganized (despite the fairly settled organization of acute care departments)
7. In financial terms, ...	h. a general idea put into a financial context	hospitals are under pressure to close or reduce the capacity of acute care wards
8. ... in this way ...	d. a concluding comment giving a result of something	the benefits of hospital care are maximized when 'patient flow' is well managed
